PROFESSIONAL SUMMARY

Postgraduate in Computer Applications with 3+ years of experience in **software development and data analysis**. Skilled in **Java, PHP, SQL, REST APIs, and** system integration**.** Experienced in developing, testing, troubleshooting, and supporting business applications with hands-on exposure to database operations and production support. Strong academic background in Cloud Technology, Linux, Networking, and Information Security.

CORE SKILLS

Programming: Java, PHP, SQL, MySQL, C, C++
Software Engineering: OOP, REST APIs, SDLC, Application Development, System Integration, Testing, Debugging
Database: MySQL, SQL, Database Design, Data Validation, RDBMS, Query Optimization
Tools: GitHub, Postman, VS Code, SSMS, Antigravity IDE
Infrastructure: Linux, Cloud Computing Fundamentals, Networking, Information Security

EXPERIENCE

Software Developer | Intouch Consumer Care Solutions Pvt. Ltd.

Nov 2022 – Oct 2023, Rejoined Feb 2024 – July 2026

- Developed and enhanced business application, integrating REST APIs for system communication and data exchange.
- Executed SQL/MySQL queries for data validation, reporting, and operational support.
- Performed testing, debugging, troubleshooting, and issue resolution.
- Automated business processes and improved application usability.
- Supported production applications and collaborated with teams on feature enhancements.

Data Analyst | Verificient Solutions Pvt. Ltd. *Oct 2021 – Apr 2022*

- Analysed service-related data to ensure smooth utilization.
- Assisted users with queries, improving service efficiency.

PROJECTS

- **Criminal Investigation Record Management System (Java Servlet):** Database-driven record management application for investigation tracking.
- **Borrower Tracker (PHP Web App):** Designed borrower tracking system with account, transfer, and history modules.
- **Electronic Waste Collector (Java Android App):** Built framework for e-waste vendors to improve recycling and reuse.

EDUCATION

- **Masters in Computer Application (MCA),** Dr. D. Y. Patil School of MCA | CGPA 8.79 | 2024
- **BCA (Cloud Technology & Information Security),** Ajeenkya DY Patil University | CGPA 9.77 | 2022
  Relevant Coursework: DBMS, Cloud Computing, Linux, Computer Networks, Information Security.

RESEARCH PUBLICATION

Social Engineering Using Malware: Introduction and Psychology- Conducted research on malware-based social engineering techniques and cybersecurity awareness.

CERTIFICATIONS

- C Programming (Udemy) **|** Networking (Udemy) **|** C++ (Great Learning)
- SQL (Cognitive Class, Solo Learn) **|** Data Center (Anixter University – BISCI)
- CompTIA Security (Exam SYO-501) (Alison) **|** CCNA routing and switching (Eduonix)

LANGUAGES
